COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In providing the statement of reasons for allowance, the Examiner paraphrased the allowed independent claims. However, the Examiner incorrectly paraphrased independent claim 89 by mixing up some of the limitations of this claim. The Examiner should have stated the reasons for allowing independent claim 89 as follows: receiving a frame comprising first and second fields each having a frame sync segment and a plurality

of data segments, wherein the first field contains a current map and count information, wherein the second field contains a next map and count information, wherein the current map indicates location of at least first and second differently coded data in a current frame, wherein the next map indicates location of at least first and second differently coded data in a future frame, and wherein the count information indicates the number of frames until the next map becomes the current map, as in claim 89.

Please enter these comments in the record.

Respectfully submitted,

SCHIFF HARDIN LLP
